

press release

Sprayology® redefines wellness and helps you feel healthier and stronger naturally. Today's fast-paced world demands a lot of energy and attention, particularly for women. As a result, people feel drained and stressed and in dire need to re-energize and relax in natural ways to improve their mind, body and soul. Sprayology has been a trailblazer in the world of wellness, developing high-quality, natural vitamin and homeopathic oral sprays to combat the stressful effects of everyday life. Sprayology lives up to its promise and is safe, simple and beautiful because Sprayology knows... "better health is beautiful™."

Sprayology rejuvenates, relieves, restores and rebuilds the body with advanced homeopathic oral sprays that have been formulated to promote natural health and wellness from within for men, women and children. Sprayology marries modern technology with the time-honored tradition of holistic health to provide essential ingredients in a unique spray form to replenish the body's natural resources to function at optimum levels. The Sprayology oral sprays work faster and better because they are sprayed into the mouth under the tongue, where they are absorbed directly into the bloodstream to deliver immediate results and enhanced health benefits.

Sprayology offers a ground breaking concept that embraces scientific insight and ancient homeopathic remedies to improve energy, health and overall balance. The Sprayology line consists of 21 FDA-regulated homeopathic formulas and two vitamin sprays designed to naturally alleviate today's most common health and wellness ailments. Sprayology treats issues ranging from lack of energy, sleeplessness and weight fluctuations to stress, jet lag, allergies, mental distraction, menopause symptoms and more. Sprayology's products offer a more convenient and enjoyable delivery of minerals and vitamins for faster relief, metabolic support, improved system functioning and detoxification.

Sprayology uses the finest ingredients available. Sprayology products have no negative side effects, and they will not interfere with other products you may be taking including prescription medication. They are FDA-regulated, safe and effective for ages two and up. Certain formulas are for adult use only.
